MONOLITE

## ABOUT THE MONOLITE

All the Monoliths are black, extremely flat, rectangular solids. In Clarke's novel, their dimensions are in the precise ratio of 1:4:9 (the squares of the first three positive integers). These dimensions are the main source of debate about the simple external design of the Monoliths. It is suggested in the 2001 novel that this number series does not stop at three dimensions.

The MONOLITE 1.4.9 offers energy independence, space design and self-sustainable zero impact Smart services. It provides a multi-purpose area with high liveability and zero energy impact. It can produce and store electric energy by using only renewable sources.

# 1.4.9

MONOLITE

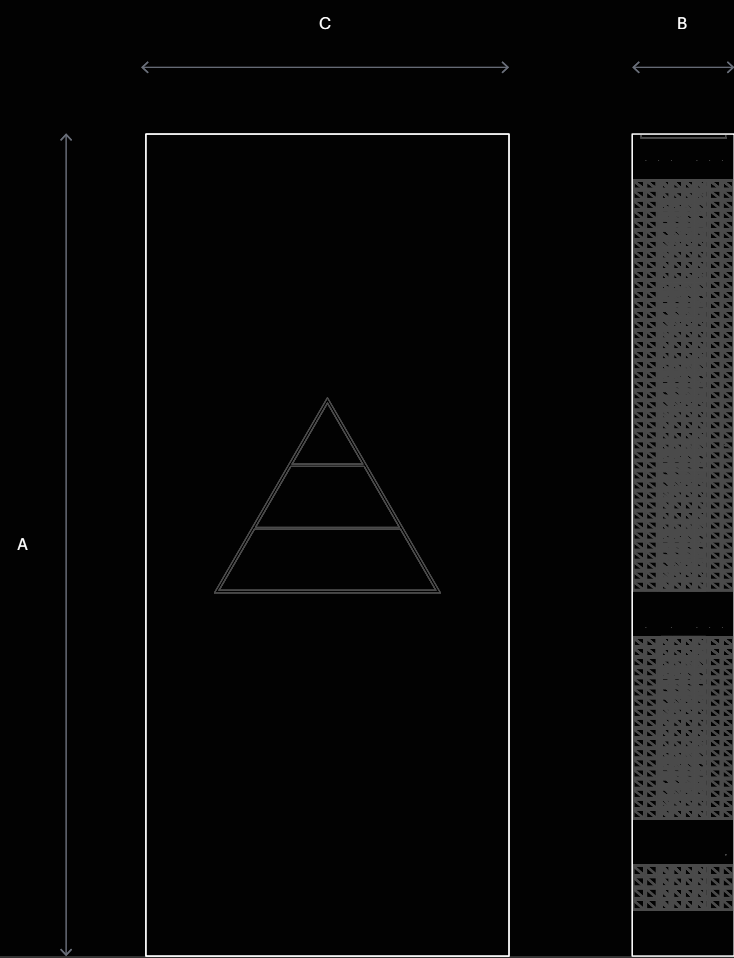

## Product Technical Data

	Small	Medium	Large
 Electrical effective power PV Panels	1.0 KW	2.0 KW	4.0 KW
 Energy's average share product by solar photovoltaic	100%	100%	100%
 Electrical Storage	3.0 KWH	6.0 KWH	12.0 KWH

# 1.4.9

**MONOLITE**

## Dimensions

	Small	Medium	Large
Height (A)	2700 mm	3600 mm	4500 mm
Depth (B)	300 mm	400 mm	500 mm
Width/ maximum size (C)	1200 mm	1600 mm	2000 mm
Absorber surface (solar photovoltaic panels)	6480 sqmm	11520 sqmm	18000 sqmm
Absorber surface (one face)	3240 sqmm	5760 sqmm	9000 sqmm

## THE ELEGANCE OF ENERGY

The world first iconic machine capable of producing and accumulating electric energy, using exclusively renewable and free sources. Combining the energy flows of the sun the machines reach maximum efficiency and meet all energy needs.

## How it works

# 1.4.9

## MONOLITE

## Costs

Solution

Price starts from

MONOLITE 1.4.9 SMALL

4.400 €

MONOLITE 1.4.9 MEDIUM

6.490 €

MONOLITE 1.4.9 LARGE

10.230 €
